

SERBIANS YIELD TO ADVANCE OF TEUTON ARMY

Drawing Enemy Back Into Mountains Before Giving Battle

BULGARIA IS QUIET

May Not Act for Fear of Bombardment of Ports

LONDON, Oct. 11, 10:10 p. m.—

The Austro-Germans now are in full possession of Belgrade and the heights surrounding the city and have begun an advance eastward toward the mountains which the Serbians last year so stubbornly defended against the Austrians.

For some time to come the invaders, it is expected, will have to fight only the rear guard, whose duty it is to delay their progress, for the Serbians will doubtless do as they have done on previous occasions—fall back until they reach positions in which they will have the best opportunity of holding their ground. In fact, military writers here do not expect a pitched battle on this front for ten days or a fortnight, by which time the allies' forces landed at Saloniki should have joined hands with the Serbians.

The Bulgarians, so far as the Greeks and Rumanians remain in the Balkans, have not yet made an incursion into Serbian territory, and it is believed they will withhold their hands until they know how matters go with the Austro-Germans. Some Balkan authorities, indeed, still believe that the Bulgarians will not interfere with the movement northward, but that they will make an incursion into Serbian territory, and it is believed they will withhold their hands until they know how matters go with the Austro-Germans.

POLICE CALLED TO SUPPRESS RIOT OF ORIENTAL SAILORS

SEATTLE, Oct. 10.—Two hundred Chinese and Japanese sailors, composing a majority of the crew of the Great Northern liner Minnesota, in port here, engaged in a riot for all night about the vessel today. Before police reinforcements restored order, several non-combatants were severely cut and bruised and one Chinese was suffering from burns caused by scalding water thrown upon him by a Japanese. The exact cause of the trouble has not been determined, but officers of the ship said the Japanese and Chinese had been on unfriendly terms ever since the Minnesota sailed from the Orient.

GOVERNOR GREET'S PEACE CONGRESS

Chancellor Jordan of Stanford Among Speakers at Berkeley

BERKELEY, Cal., Oct. 10.—Impressive outdoor services in the Greek theater, during which several thousand delegates united in praying for universal peace and a termination of the war, marked the opening of the International Peace Congress here today. Remaining sessions are to be held in San Francisco. The concluding session will be held Wednesday. The congress is under the auspices of the American Peace Society and the Church Peace Union and similar allied organizations.

Among those who spoke were Governor Hiram W. Johnson, who welcomed the delegates; David Starr Jordan, chancellor of Stanford University; James A. McDonald, editor of the Toronto, Ont., Globe, and Rev. Frederick Lynch, New York, secretary of the Church Peace Union.

McDonald in speaking upon "Internationalism and Democracy" said: "North America's greatest achievement and her greatest contribution to the world is the unfortified boundary between Canada and the United States—four thousand miles in length and peace that has existed for 100 years."

He asserted that liberty, democracy and internationalism must be the dominating ideas of nations in the era following the termination of the war.

In speaking upon "The way to lasting peace," Chancellor Jordan said: "At the end of the war we shall have the greatest intellectual and political struggle since the Reformation, on one hand the individual state militarists, on the other hand the federalists for the co-operation of states."

"Already the war system has fallen of its own weight with its expenditure of resources included, for forty thousand millions of dollars."

"It can be charged to the old strategists and their lackers, the diplomatists."

The congress reopened tonight in San Francisco with the address of Archbishop Francis J. Hannon, president of the Catholic Church in the United States, who said the Catholic church must necessarily largely be a determining factor, for there are millions of her children in the struggle and in the councils of peace they must have a large representation, and her guidance will be sought where justice and mercy and righteousness prevail.

In the final decision of the war, he said, the Catholic church must necessarily largely be a determining factor, for there are millions of her children in the struggle and in the councils of peace they must have a large representation, and her guidance will be sought where justice and mercy and righteousness prevail.

ENEMY POWERS MAY BLOCKADE PORTS OF GREECE

Unless Venizelos Is Returned to Office as Premier

MUST GIVE AID

Situation Serious in East for Enemies of Germany

LONDON, Oct. 11, 1:30 a. m.—King Constantine of Greece is ill and confined to his room, says a dispatch from Athens to the Vossische Zeitung of Berlin which has been received here.

ATHENS, Oct. 10, via Paris, 4:15 p. m.—The representatives of the entente powers, who are exerting no pressure on the Greek government, are urging it to reply to the question put last Thursday in regard to its future course respecting the Serbo-Grecian alliance. The cabinet deliberated on this question at great length yesterday and today, but has not succeeded in reaching any determination.

A neutral diplomat in Athens reported to his government his opinion that which less than a month former Premier Venizelos will be returned to power or else the ports of Greece will be blockaded by the entente powers.

It was learned from an authoritative diplomatic source that the representatives of the quadruple entente have advised Greece that Bulgaria's present attitude results from a written agreement signed on July 17 by Prince Hohenzollern-Langenburg, the acting German ambassador in Turkey. This agreement was made on behalf of Austria and Germany, provided for cession to Bulgaria of Serbian and Grecian Macedonia; of the Greek ports of Salonika and of Kavala; of Eastern Macedonia; of the Albanian border, and all of Albania. The representatives of the entente powers assert they have proof that this agreement was made.

The foreign press corroborates a dispatch from Athens, which says that the German ambassador, who said Germany was understood to have promised Bulgaria northern and southern Albania, the whole of new Serbia, Greek Macedonia and also Salonika and Kavala.

Chief of Police May Die Following Battle With Thugs

CARRINGTON, N. D., Oct. 12.—Four unidentified men who held up thirty persons in a pool here last night, obtaining \$200, were trailed to a rooming house today by the police and in a gun fight followed one robber was killed, Chief of Police Carl Nelson probably fatally shot and another bandit wounded. The latter escaped with the other two robbers and the three engaged in a running fight until a posse of about twenty of their pursuers before surrendering.

TO CONFER WITH MINE MANAGERS

Representatives of Union Start From Arizona for El Paso

CLIFTON, Ariz., Oct. 10.—Charles W. Harris, assistant general of the Arizona militia; Sheriff James G. Cook and a committee of seven miners representing the strikers from the three large copper companies, left here tonight on a special train for El Paso to confer with the mine managers. They will arrive in El Paso early tomorrow. The committee is authorized to enter into a preliminary agreement, which however, must be ratified by the strikers before becoming effective.

The names of the men were telegraphed to the mine managers. They were referred to by Sheriff Cook in his message as former employees, not as union men.

Additional state troops with a field hospital outfit arrived from Yuma. There are about 250 militiamen here.

W. C. T. U. OPENS BIG CONVENTION

Forty-Second National Gathering at Seattle—Church Services

SEATTLE, Wash., Oct. 10.—Special church services were held today in honor of the National Woman's Christian Temperance Union which began its forty-second annual convention here last night.

Mrs. Maudie Curtis, president of the W. C. T. U., delivered an address on the conservation of human life, in which she said that defective children were the result of parental indulgence in alcoholic liquor.

PRESIDENT VISITS BALTIMORE BROTHER

With Fiancee, Attends Church and Spends Day in Maryland

WASHINGTON, Oct. 10.—President Wilson and Mrs. Norman Galt, his fiancée, motored to Baltimore today to visit the President's brother, Joseph H. Wilson, who had not met the next mistress of the White House before. While there, they attended church and were the guests of honor at a family luncheon party.

Several hundred people in Baltimore learned of the presence of the couple and crowded about the church and the apartment house in which Joseph H. Wilson lives to catch a glimpse of the President and his bride-to-be. Because it was Sunday, the applause of Friday and Saturday in New York and Philadelphia was missing, but the people voiced their approval of the President's choice in audible comments.

CHICAGO SALOONS NEARLY ALL SHUT

CHICAGO, Oct. 10.—Saloon, hotel and restaurant bars were closed here today for the first time in forty-four years. Mayor Thompson's order of a week ago came in conformity with a state law which had almost been forgotten because of its non-enforcement. The 1,532 saloons of the city and the restaurants and hotels operating their liquor privileges under a city ordinance requiring closure only between the hours of 1 a. m. and 2 a. m.

According to police reports, the order was generally observed. Instances of places in widely scattered parts of the city opening side doors for admittance of a favored few were reported, but these instances were comparatively rare. In the Loop district the order being rigidly observed, according to the police.

BRICK WALLS KILL THREE FIREMEN

RICHMOND, Va., Oct. 10.—While firemen were at work among the ruins of buildings destroyed by fire early today, a brick wall toppled over and buried them. R. M. Norman was instantly killed; C. L. Atkinson and W. E. O'Brien were so badly injured they died soon after reaching the hospital. A. K. Davidson and D. C. Johnson were perhaps fatally injured. The fire damage is estimated at \$500,000.

Not Much Damaged.

BERLIN, Oct. 10, via London, 9:45 p. m.—Dispatches from the Serbian front report that Belgrade was not damaged greatly by bombardment. The city was shelled as far as possible although some private buildings were destroyed.

Serbian rear guards contested the passage through the city streets of the Teutonic forces. Part of the civilian population remains in Belgrade.

BATTLES OVER IN MEXICO, SAYS FIRST CHIEF CARRANZA

Recognition by the United States Puts Finishing Touch to Opposition

OFF ON A TRIP To Issue Amnesty When Peace Is Entirely Restored

VERA CRUZ, Oct. 10.—General Carranza today with great pleasure announced that the Pan-American conference at Washington had decided to recommend recognition of the party led by him as the de facto government in Mexico, although he pointed out that he had received no official notice from the United States.

He will not alter his plans for a trip through the northern states, for which he is to depart tomorrow.

In response to questions, General Carranza said: "This news puts an end to all efforts of all enemies to bring about foreign intervention. They continue their intrigues and attacks in newspapers but recognition of the Constitutional government naturally will rob them of the fruits of their efforts."

"When peace absolutely is restored and tranquillity really established throughout the country, amnesty will be granted to all these persons, but not now. To permit them to return at this time would be to endure their machinations within the republic."

"The immediate effect of this news will be a great moral strengthening of the constitutionalists and a corresponding disheartening of opposing factions. Fighting of that sort already has ended, but naturally the struggle to put down minor outbreaks and lawless acts within the country and abroad, or greater or less in country such as this, where there are extensive operations."

"Already these lands are disintegrating rapidly and their chiefs are surrendering. This development will bring about the speedy ending of the opposition, since the news of recognition will remove from them their hope of success. This applies not only to those who are actually fighting in the field, but to those enemies of the cause who are intriguing behind the scenes and endeavoring to bring about the overthrow of the government."

"News of the coming recognition is pleasing, since it will renew and strengthen the friendly relations between Mexico and other nations."

Few Americans.

EL PASO, Texas, Oct. 10.—General Villa's formal declaration of war against the United States, which was received at the state department at Washington, today, because of the recognition of Carranza's government, he would not hold himself responsible for the safety of lives and property of foreigners created little apprehension among today of immediate danger to foreigners.

American Consul Edwards of Juarez, declared that there were few foreigners now in Villa territory, the largest body being Mexican colony district of Casas Grandes. It was true, he said, that about 100 employees of the railroad company were at Juarez, but he refused to obey the state department's advice with respect to remaining, but he did not believe they were in any danger.

Half a dozen foreigners arrived from Chihuahua City today. They declared they came only on business and expected to return.

A pair of an uprising at Juarez after the departure of General Villa last night for Casas Grandes has subsided. There was the usual large crowd at the bull fight last night and tonight the city had the usual quota of foreign visitors.

From a military source it was learned that General Villa had declared to Carranza that the United States and other foreign nations could not now hold him responsible for what happened to their nationals in "his" territory and while he and his band would commit no depredations, they would not attempt to stay the operations of bandits that might spring up.

The United States and foreign nations having refused Carranza's request to look to him for protection, he was quoted as saying:

"The status of Juarez as a port of entry has not been changed, it is said here."

Will Put on Embargo.

WASHINGTON, Oct. 10.—Official notices have been received here that the governments of Argentina, Brazil and Chile are in accord with the decision of the United States to grant recognition to the party led by General Carranza as the de facto government in Mexico.

It became known today that some of the South American governments long before yesterday's conference had authorized their diplomatic representatives to favor the recognition of General Carranza in the Pan-American deliberations.

President Wilson has received from Secretary Lansing a report of the proceedings of the final conference, but several days ago he indicated to the secretary his acquiescence in the plan proposed.

The form in which recognition is to be accorded has not been decided, but it may be done by formal notification to Elicio Arredondo, authorized representative here of the Carranza government. Extension of recognition is expected within a week.

This will result in the immediate order of an embargo on arms to factions opposing the Carranza government, a step which will materially weaken the resources of the Villa element which intends to continue the fight in Mexico.

To Continue Fight. Miguel Del Real, Carranza's son, on a statement tonight in behalf of the Carranza government.

BRITISH DIVER SINKS GERMAN SHIP; WARNING

LONDON, Oct. 11, 11:15 a. m.—A Copenhagen dispatch to Reuters' Telegram company says the German steamer Lake of Heil has been torpedoed by the British submarine E-1, near the British coast. The crew of twenty-one men was given time to enter the boats.

BLAME GREY FOR BALKANS FAILURE

British Find Their Diplomacy Is Decidedly at Fault

LONDON, Oct. 11, 3:25 a. m.—Despite the protests of many newspapers against the press attack on Sir Edward Grey, the secretary for foreign affairs, on the ground that nothing could be more welcome to Germany, the attacks continue.

"The Times in an editorial today, referring to the failure of the British diplomacy in the Balkans, says: 'From the first moment of the war, when the German empire stood alone against us, right down to the last week of last week, our misadventure seems to have followed another with almost mathematical certainty. Rumania still holds out. But she holds out in passive isolation, no longer in touch with the advancing Russian armies and inevitably influenced by what is passing around her.'"

"The Times thinks that the foreign office must bear the brunt of the blame, but it recognizes the handicap of allied diplomacy especially the handicap of Italy, with her special claims on the eastern Adriatic seaboard, while, it says, it is naturally impossible for the allied diplomats to make the swift decisions of a single foreign office in Berlin."

"Unless we are misinformed, however," the Times adds, "the British foreign office, which from the first had a privileged position in dealing with the Balkan people, was entrapped by the Allies with the leading part in Balkan diplomacy, and must therefore be responsible for its failure."

"The Times arrives at the conclusion that much of the trouble is due to lack of co-ordination between military effort and diplomatic knowledge and between the foreign policy and the military policy."

"It was this," says the Times "that led to the disastrous Balkan failure, in which our ally, Rumania, was transported to a number of government exhibits at San Francisco in Panama, where they are to represent the United States at the National exposition, which is to be opened by that country on January 21."

Among the exhibits to be carried from the United States to Panama are those of the Library of Congress, and the transportation of these to the tropics presents a difficult

EVANGELIST TALKS ON "DEAD" CHRISTIANS

Denounces Republican for
Not Giving Him Sufficient Publicity

Rev. Dan Shannon last evening addressed an audience of what he estimated as 2000 people at his tent on the corner of N. and Commercial streets. His subject was "Dead in Sin," which theme he developed to point out that the churches of Fresno are suffering from a failure of its members to show continually that they are living Christians. More activity for Christ, he manifested especially in the form of attendance at the Shannon meetings, was called for.

Shannon took occasion to denounce the Republican for not giving him as much publicity as he had asked for, declaring that while it was "the general attitude of the Republican that nothing could be done without its aid, he would show that it could be done, and that the Republican could go to bed. They can take that for what it is worth."

He declared that if the Republican desired a fight, he would "fight them to a finish."

Shannon scored the use of moving picture machines in churches and the giving of bouquets, declaring that these things kept people from attending his meetings.

German Retort.

BERLIN, Oct. 10, by wireless to Tuckerton, N. J.—The Cologne Gazette refers to the accusations of Lord Cromer and the Marquis of Crevecoeur in the house of commons that German consular officials encouraged the Turkish population to attack Armenians. "The newspaper states that the purpose of these unfounded assertions is easy to comprehend. England wishes to divert the attention of neutrals from the violation of Greek neutrality and since the Balkan question no longer is novel enough, turns now to accusations."

Society Notes

The Welcome Circle of the First Presbyterian Church will meet in regular session this week, but will meet Thursday afternoon at 4 o'clock to serve lunch to the Brotherhood of the church.

An informal dancing party will be given by the Sunnyvale Country Club, tomorrow evening, October 12.

A SAIL OF AIRSHIPS.
You want to buy an airship?
"Whi," make do you prefer?
The Dandelion's out of style,
But Thistle makes a stir.

Some fairies choose the Milkweed—
It carries quite a load;
I know one who Which Hazel bought,
And found it would explode.

You want to travel swiftly?
To see the loveliest things?
And go out safely? Seems to me
I'd try the excellent Wings—

GOLD.
Gold on the nuptials.
Gold on the pines.
Gold in the west
When the sun declines.

Gold in the broods.
Gold in the flower.
Gold in the wheat.
And the summer shower.

Gold in the world?
Yes, everywhere.
Save the dust of grief
Which all men share!

Home and Its Front Door

HORSE PATRONIZES A CAFE

A big bay horse, unhitched from a truck, was being led into a stable at 47 Oliver street, when a piece of white paper fluttered across its nose. The horse reared and then ran down Madison street. A crowd of men and children pursued, but before any one could reach the horse it had crashed into the restaurant of George Hazen at 48 Madison street. Hazen's restaurant adjoins Michael A. Hoffman's Home Rule club, and a few minutes after the accident a score of more detectives arrived, thinking there had been another shooting. The horse was owned by Salvatore Marchese, a truckman, of 47 Oliver street. —New York Times.

THE WAR SPIRIT.

A fat "colored mammy" of the "old school" was hauled into court for throwing her washing board at her neighbor's husband, a "Georgia cracker," of the "poor white trash" variety. "Did you strike this man with a washingboard?" Judge Broyles asked. "I spec' I did, yo' honah."

"What was the provocation?"
"We was discussin' wah, ledge,"
"Well—go on."
"We was talkin' 'bout den Gernings, an' John's Bulls and den Frenchmens and he done said I was nutral, yo' honah. I ain't gwine to let no low-down white trash call me dat."—From Case and Comment.

BACK BROKEN THRICE, LIVES.

By means of a delicate operation in the Cooper Hospital, Dominick Perillo may live, although his spine was broken in three places when he was buried under a pile of coal.

Perillo was partially paralyzed by the bones touching on the vital cord, and their removal restored the sense of touch in the limbs. The hospital doctors say that the patient is almost sure to recover. —From the Philadelphia North American.

ONE BULLET WOUNDS TWICE.

Frank Dickmann, 35 years old, a clerk, living at 3743 California avenue, is at the city hospital suffering from two wounds made by one bullet at his side. He said he was cleaning a revolver and discharged it accidentally.

The bullet passed through the flesh of the groin, emerged, struck the right thigh and plowed a tunnel 6 inches long under the skin to the knee. —From the St. Louis Post-Dispatch.

NO LIMIT

The newly rich couple went at once to New York with two friends. They visited one of the noted cafes for lunch. As they seated themselves Mrs. Parvenu whispered to her husband:

"Ask for a menu, Jack."

Parvenu puffed out his chest and chuckled.

"One menu only," he said. "One menu for four? No, no; I'll do the thing well, now I've started it. Here, waiter, four menus—fresh ones, mind, and see that they're not overdone." —From the Argonaut.

PIGEON SAVED BY WOMAN

The pigeons on city hall plaza owe a vote of thanks to the Women's Pennsylvania Society for the Prevention of Cruelty to Animals, for had it not been for members of the society the pigeons by this time would be dying of thirst.

The excavations for the new subway about city hall turned the water that the pigeons have been drinking into mud, and nobody seemed to care. One man, who feeds them frequently, noticed the change and called up the women's society, which promptly voted an appropriation to buy small troughs. And the pigeons are now drinking pure water. —Philadelphia Public Ledger.

A CRITICAL CASE.

"Mr. Jones, you will either have to marry at once or leave our employ."

"But why are you so anxious that I marry?"

"While you are in love you do not half attend to your duties, and you must either be cured or fired." —From the Houston Post.

MALE CHORUS MEETING

Owing to the Fresno Musical Club attraction at the White Theater, the Fresno Male Chorus will meet at Sherman & Clay Company tonight at 8 o'clock instead of 8 o'clock.

THE MURPHY'S HAVE MOVED.

"The Murphy family has moved from their summer home into their steam-heated apartment."

This is not a society item, but Headkeeper Bill Snyder's method of announcing to his hunchback friends that the hippopotamus family has moved from the tank enclosure in the zoo in Central park to the lionhouse in the Bronx. The move was made necessary because of the sudden drop in temperature.

The change was made in the early morning and before there were many visitors. A temporary runway was constructed from the open-air corral to the lionhouse, and through this Mrs. Murphy, her husband, Caliph II, and the baby marched.

Mrs. Murphy led her family as usual, Snyder said. Her mate followed and baby hippo brought up the rear. There was no sign of the slightest trouble, and the transfer was accomplished in seven minutes. Mrs. Murphy was so glad to get back to her old home that she slid into the tank with a splash that woke the lions to vocal protest. —From the New York Times.

CAPSID; LEARNS TO SWIM

Until she was thrown into Assinippi creek, when her canoe hit a pile under a bridge and capsized, Mrs. John Hutton did not know she could swim. She had taken lessons and failed to master the stroke.

When she found herself in deep water, Mrs. Hutton retained her senses, listened to the shouted instructions of persons ashore and swam upstream an eighth of a mile before she was sinking. Her sister, Miss Mary A. Parker, clung to the overturned canoe and was rescued. —Burlington (N. J.) dispatch to New York World.

MAYOR TO SLEEP IN COFFIN

Mayor Riddle has ordered a coffin to sleep in instead of going to a Turkish bath, when he came lit a pile under a bridge and capsized, Mrs. John Hutton did not know she could swim. She had taken lessons and failed to master the stroke.

When she found herself in deep water, Mrs. Hutton retained her senses, listened to the shouted instructions of persons ashore and swam upstream an eighth of a mile before she was sinking. Her sister, Miss Mary A. Parker, clung to the overturned canoe and was rescued. —Burlington (N. J.) dispatch to New York World.

THE BABY SUBMARINE

Little infant of the sea,
Foe of slumber you shall be.

Folks will miss their sweet repose
Waiting for your eye to close.

At your slightest stir or sound
Fear shall thrill the people round.

Lullabies you do not crave,
Vain the singing of the wave.

You will never go to sleep
In the cradle of the deep.

WELCOMES STORK; GOES TO JAIL

"The baby is born and I am ready to accept sentence."

This was the declaration of Michael J. Sheehan, former mail carrier, to Federal Judge George A. Carpenter. He was charged with keeping letters from the mails. Sheehan had been suspended upon his plea that he might be at home when the stork arrived.

Judge Carpenter sentenced Sheehan to sixty days in the jail. —Chicago Dispatch to New York World.

LOVE SURVIVES FEW SLASHES.

When Frank Tizano was charged in city court with slashing Angelina Darsa across the face with a knife, the girl stated that they were engaged and that Tizano was jealous because she had gone to a party without his consent.

"Are you still going to marry him?" asked Judge Christman.

"No," replied the girl.

Judge Christman dismissed the case, and then remarked:

"What a strange thing is human nature." —Williamston Dispatch to Philadelphia Inquirer.

DON'T BLAME KAISER FOR OYSTERS

The oyster growers of Sayville, L. I., have arrived at a conclusion which will please Emperor William more than anything has done since the allied drive began. They have decided that he is not personally responsible for the fact that the Blue Point oysters have lost their luster, and that the great European struggle started. No gilded parchment has been sent to his imperial majesty regarding the matter, but his standing in Sayville, L. I., is unquestionably much improved. This buzzing wireless stand acquittal.

The oystermen now believe that inasmuch as the war cut off the great foreign shipments of oysters, they have overpowered Great South Bay with the American product, with the result that they have made the oysters what they are today.

The compactness of the oysters is caused by the fact that they have less room than they ever had, and the natural food of the bay drift has been too meager to feed the great oyster stock in a way that would make them big or satisfactory in any way from the oystermen's standpoint.

The excessive rains of the summer have aided the present crop of Blue Point oysters to an extent, but neither year will see them bigger and better than ever before if the oystermen succeed in restricting the growing as they have arranged to do. —From the New York Herald.

ELEPHANT ON HIS HANDS

Constable Bush of Justice Slater's court, has an elephant on his hands—Mary Ellen, performing beast, charged with assault to kill one Charles Leibel, stage manager of the Grand theatre. Leibel was killed in Justice Slater's court against H. Schulz and M. M. Baker, for \$500 damages for injuries inflicted by Mary Ellen, and she has been attached and is now under arrest at a lively stable at Eleventh and Walnut streets.

When Bush went to attach Mary Ellen he called for volunteers among the hangers-on at the court, but all refused to take a chance to make \$2 a day by acting as her guard. At the lively stable men were found who were willing to risk their lives in Mary Ellen's company, and two were engaged to watch her.

The case is to be tried next week. If it is decided by the court, Mary Ellen will be sold to the highest bidder, unless her owners can pay the judgment. —St. Louis Post-Dispatch.

MOCK SENTENCE CARRIED OUT

When Alfred Berlin, 41 years old, presiding justice at the mock trial in the Lynn Y. M. C. A. gymnasium, on Thursday evening, April 15, ordered W. Stanley Newhall, Lynn's champion amateur basketball player, to marry Miss Freda Olson, daughter of Mr. and Mrs. A. Olson, at the conclusion of the young woman's sensational \$10,000 breach of promise suit against the young man, few realized that the defendant took the court's finding any more seriously than the hundreds of spectators who laughed all through the humorous proceedings.

But it seems that "Judge" Berlin's disposition of the case is to be carried out, as the engagement is the result of the mock trial, said Miss Olson, when seen at her home last evening.

"I had known Mr. Newhall four years previous to the trial, but it was not until after 'Judge' Berlin's decree that Stanley became serious in his intentions," Lynn (Mass.) Dispatch Philadelphia Record.

HER FIRST AUTO RIDE AT 101

Mrs. Mary Burnett, 101 years old, one of the oldest members of the Order of the Indians, came here from Wrentham, to draw her money from the government and enjoy a little outing.

"I've always wanted to ride in an auto," she said, "so just as I was coming from the station I saw one and asked to ride in it. The man charged me a quarter, but it was worth it."

Mrs. Burnett had hired a taxicab at the depot. —Muskegon (Mich.) Dispatch New York World.

BEE'S KNOCK OUT FARMER

Charles Andrews, a farmer, of Richmond, was nearly stung to death by bees. He was rearing honeybees when the moths ran into a nest of bees. Immediately he was overwhelmed with them and was stung more than 500 times. His condition is serious. His horses ran away and wrecked the reaper. —Pittsfield (Mass.) Dispatch in N. Y. Herald.

BATTLES OVER IN MEXICO, DECLARES CHIEF CARRANZA

(Continued from Page 1.)

Villa faction, declaring that while it was a source of satisfaction that the United States had shown its sympathy with the Mexican constitutional revolution against Huerta by recognizing a revolutionary faction, nevertheless it was intended to demonstrate by further military operations that the Carranza party's supremacy was temporary.

Although the documents presented to Secretary Lansing and the Pan-American conference by Eusebio Arredondo, on behalf of General Carranza, on which the decision to recognize the Carranza party was based, have not been made public, it became known that the chief chief of state's explicit assurances with reference to the protection of foreigners, claims amnesty for political offenses and the treatment of the clergy. An extract from a memorandum presented to the Pan-American conference on behalf of General Carranza, contains the following articles outlining the program of his government:

"1. The constitutional government shall afford to foreigners residing in Mexico all the guarantees to which they are entitled, according to our laws, and shall amply protect their lives, their freedom and the enjoyment of their rights of property, allowing them indemnities for the damages which the revolution may have caused to them, inasmuch as such indemnities may be just, and which are to be determined by a procedure to be established later. The government shall assume also the responsibility of legitimate financial obligations."

"The first concern of the constitutional government shall be to re-establish peace within the province of law and order, to the end that all the inhabitants of Mexico, both native and foreign, shall equally enjoy the benefits of true justice and be interested in co-operating to the support of the government emanating from the revolution. The commission of crimes of the common order shall be punished. In due time an amnesty shall be enacted in keeping with the necessities of the country and the situation which in no way shall exempt those under it of the civil responsibilities they may have incurred."

"3. The constitutional laws of Mexico, known under the name of 'Laws and Reform,' which established the separation of the church and the state and which guarantee the individual right of worship in connection with his own conscience and without offending public order shall be strictly observed. Therefore, no one shall suffer in his life, freedom and property because of his religious beliefs. Temples shall continue to be the properties of the nation according to laws in force, and the constitutional government shall again collect the purpose of worship which may be necessary."

"4. There shall be no confiscations in connection with the settlement of the agrarian question. This problem shall be solved by an equitable distribution of the lands still owned by the government; by the recovery of those to which may have been illegally taken from individuals or communities; by the purchase and expropriation of large tracts of land, if necessary; by all other means of acquisition permitted by the laws of the country. The constitution of Mexico forbids privileges and therefore all kinds of properties, regardless of whether owners may be, whether operated or not, shall in the future be subject to the proportional payment of taxes in connection with a just and equitable valuation."

"5. All property legitimately acquired from individuals or legal governments, and which may not constitute a privilege or a monopoly, shall be requested."

"6. The peace and safety of a nation depends from the clear understanding of citizenship; therefore the government shall take pains in developing public education and to this end it shall utilize all co-operation rendered in good faith; permitting the establishment of private schools subject to our laws."

Other articles refer to the plans for the establishment of constitutional government, first by the election of municipal councils, and then by the election of a federal congress. To this body, the first chief will render an account of the use he may have made of the executive power, so that decrees previously made may be enacted or rejected. The chief will convene an election for president and vice president throughout the republic, and as soon as this takes place the first chief shall deliver the executive power to the president-elect.

STEFANSON.

A lucky man Stefanson is! The world had thought that he was Fritz.

But he was not. It now appears that he has been for several years exploring round the Arctic regions, and means to stay there with his legions.

First off you'd think his lot, perhaps, Unenviable was, it chaps. The hands and face up there, you know, And one can't see a movie show, But pause and let your reason range Before you say you'd not exchange.

Just think! Stefanson never heard Of "wasteful waiting," that rare bird; A scrap of paper to his mind It's just a scrap with naught behind.

If Dr. Dumbly you should mention, It would not gain the least attention. For and the fingers freeze up there, His mind is on the polar bear.

And Arctic circles, poles and seals, And whether all the milk congeals, His only plotline's on a map. Stefanson is a lucky chap.

EAT FLOWERS TWO ARE DEAD.

Eating yellow dock flowers caused the death of George, 2-year-old son of Mr. and Mrs. Alfred Pahlstrom, of Warren. Ten days ago the boy and his sister Margaret, 4 years old, ate some of the poisonous flowers which grew near their home. A few hours later they became seriously ill, and physicians were unable to diagnose the cause.

Last Thursday the girl told the physicians they had eaten some posies. She died a few hours later. The two little bodies will be laid in a double grave in Oakland cemetery. —Kane (Pa.) Dispatch to Phila. North American.

A gentleman having engaged a bricklayer to make repairs in his cellar, collected the bill to be paid before the bricklayer commenced his work.

"Up to not afraid of a barrel of ale ain't," said the man.

"If you trust me I doubt but that of the ale" was the reply. "I am positive it would run if you came near it." —Philadelphia Public Ledger.

PARTISAN BUNGLER

Here we are all discussing the non-partisan referendum as if the question of partisanship or non-partisanship in state elections were really before the people to determine. Which, in fact, it would have been if the anti-reformers had succeeded in their attempt to resort to referendum. But the actual situation is that they so muddled the job that they have not got that question before the public at all.

There are three election laws covering (1) registration, (2) primary, and (3) general election. The legislature passed these three laws, amending these three laws. The anti-reformers invoked the referendum against two of these laws, leaving the other undisturbed. And that law is now the law of California.

This first law, which was permitted to go into operation, unopposed, was the one which completely wiped out the old system, to clear the way for the other two, which established the new system. It abolished all party registration, and thereby abolished all means by which, under the old law, party primaries could be held or party nominations made. Under this law, unless supplemented by the new laws whose defeat is now sought, there would be no way to run for either state or national office except by petition, as an independent, under Section 1185. This new, we repeat, is now the law of California, and no referendum has been invoked against it.

Thus the only practical issue before the voters of California is whether they shall pass the two laws (2) primary, and (3) general election, now suspended by referendum, or whether, by defeating them, they shall leave the other law, (1) registration, standing alone, in conjunction with the old, unamended laws, which the proposed proposed laws (2) and (3) are to take the place of. And if these laws, (2) and (3) are defeated, the effect of (1), standing alone, will be to make party nominations impossible, even for national offices.

It is as if there were a family dispute as to pulling down the old house and building a new one, or retaining the old, and the faction favoring the old had stood quietly by and permitted it to be demolished, and had then raised a protest against building the new, when the only practical alternative then remaining would be to live on in the roofless cellar.

The practical situation is that those who believe in state non-partisanship with vote for the non-partisan laws because they approve them, while those who oppose non-partisanship should also vote for them, as the only means of saving even national partisanship. It is a bundle of their own representatives that left them only this alternative.

LET'S ALL STAND PAT

Now, let us all stand pat. (This is addressed to the conservatives.) Whatever is shall stay as it is, and we will resent anybody's efforts to bother us to change it.

Very good! The direct primary is already established in California and we are used to it. Therefore we will refuse to be interested in the appeals of the agitators who are asking us to take what they propose shall be the first step backward toward the old convention system. The non-partisan form of the direct primary is now in operation as to nearly all the elective offices in California, and we are used to it. Therefore we object to reopening the question. The thing is working and it is not bothering us. Let it alone. The legislature passed a law extending the system to the nine remaining offices not already included in it. Some agitators have invoked a new-fangled device called the referendum, against part of that law, but they forgot to invoke it against the rest. But we believe in representative government, and don't care to be bothered to review laws which the legislature has already passed—especially when the agitators have so bungled the matter that nobody knows what would be the result if they were to succeed in setting aside part of the law and leaving the rest in force. Anyhow, it is a law already passed; it merely rounds out and simplifies what we are already familiar with; and we don't care to be bothered with agitators who are trying to upset it.

So, let us all stand pat, and vote YES on the non-partisan law, to leave the law just as it is.

This, it would seem, should be the natural reaction of conservatism to this partisan referendum agitation. There is no argument of reason or principle against the election law as the legislature passed it. The only objection is inertia. People who are used to one way of doing things are naturally prejudiced against a new and different way. But inertia, even in the world of inanimate objects, does not always mean standing still. It means continuing to do whatever the object is now doing, whether standing still or moving continuously in the same direction. California is in this second state of inertia. It has been moving continuously, for a dozen years, in the direction of non-partisan elections, until it has now moved nearly all the way. The easy thing, the natural thing, the conservative thing, the preserve thing, even the lazy thing, is to keep moving for the little remaining way. The alternatives would be the

SERMON THEMES

In some of the larger cities of the country, it has become the custom for churches to retain regular advertising space in the daily papers, to "play up" the programs that will be presented to communicants at Sunday services. While the practice has met with some criticism, in general it has been carried out in worthy spirit, the feeling being that it is the duty of the churches to go out into the highways and hedges to bring the sinners in, and that the use of space in the daily papers is one way of reaching the sinners. The practice is possibly offensive to those who regard church attendance solely as a duty, a duty which ought not be sugar coated with any form of inducement, even the sugar coating of mental entertainment.

A glance over the published programs of Los Angeles churches given in display advertising in a section of one of the Los Angeles morning papers this past week, is interesting, however, as showing the diversity of theme which the clergymen feel called upon to discuss. They may be said to range all the way from the simple Gospel text in the one direction to a most erudite discussion of the church's intellectual function, and in the other direction to a decidedly yellow consideration of moral delinquencies and the church's opportunity to correct them.

This week's list of sermon topics was as follows:

Was Christ a Christian?
Joy riding and one-arm driving.
Twice two is one.
Going to school to Jesus.
What is the chief end of God?
The reason of the agnostic.
Joy and peace in believing.
Do we inherit the guilt of sin?
The church's outlook and equipment.
My part in the church's onward movement.
The Christian's use of his church.

Who is the wickedest man in the world?

What shall we do with the hyphenated American?

The church of the open door.

Elijah: a character study.

The eighth commandment.

Phileas's wife. When husbands should obey their wives and when wives may disobey their husbands. Should "obey" be in the marriage ceremony? Are women braver than men?

The extravagance of Christ.

Are the ten commandments out of date?

Glimpses into the future life.

The proper approach to the Bible.

The adventures of a liar.

A visit to Canada in wartime.

Walking with God today.

A man after God's own heart.

The cry of the world's heart.

The silent partner.

Prayer for laborers.

The place of the child in the kingdom.

What is to become of the one who willfully sins?

Discovering America.

EXTERMINATION OF ARMENIANS

Editor Republic: For centuries the Turkish Empire has been known as a corrupt, unjust and unscrupulous government. There also has been a constant unrest among the "Christian" inhabitants of Europe in the past as well as at present, concerning the hardships and wrongs to which the Christians of Turkey were and are subjected. By the desire and help of the majority of the so-called Christian powers, a distinct Christian nationality—namely Greece, Rumania, Serbia, Montenegro and Bulgaria—were liberated from the Turkish unbearable yoke during the last century.

The Turkish government, fearing that the next move would be in favor of the Armenians, had deemed it wise to commence a campaign to gradually exterminate the Armenian race, about forty years ago. It was in this campaign that the Sultan, Abdul Hamid, the "Red Sultan," became so famous during the middle of his thirty years on the throne. And it is the fulfilling of the same campaign that is making the "Young Turk Party" extremely famous. As the head of that party—Enver Pasha—is quoted as saying: "All more in thirty days than Abdul Hamid did in thirty years."

The aims of the Turks have been and are known among all Armenians, and while Armenians in Turkey are trying to defend themselves, the enemies of their lives are sending broadcast reports of "Armenian uprisings," which may serve to conceal their real purpose. If it were for subduing the so-called uprisings, they might have been justified in their brutal acts against the Armenians. But what was an uprising to do with helpless women, old men and children? And what would you think about a so-called Christian government which openly justified these barbarous proceedings? Well, it is a question. The Armenian race must be a sacrifice for diplomacy, in other words, Turkish aid is needed for the German cause and "Kultur" in order to get the Turks and the German must leave himself to the level of the Turkish Turk. Would you believe it? That in what is happening right now under the God's sun.

It takes an Armenian to feel the blind of modern diplomacy. And as "Kultur" is right, they Armenians are do nothing but surrender to the cruel fate which has been brought about by the selfishness and greediness of the so-called Christian nations.

Clothes for Votes

A college is a factory for turning raw material into two-handed athletes and kid-finished society leaders, and future members of "Who's Who." Its work is marvelous. It can take an 18-year-old youth with premature hair, bushy eyebrows, and an Adam's apple like a pin, and in four years can work him over into a calm-eyed, happy man, a champion, who looks as if he had just stepped out of a ready-made clothing advertisement. It can transform a bashful boy, who turns his toes in so that they will not be too prominent, into a loud noise in a flat hat and a sore throat, necktie, who is only happy when he is stealing the wheels from under a trolley car. It makes statesmen out of cow-herders, society leaders out of plow-boys, half-bucks out of mother's drillings, and wise men out of high school seniors. And it accomplishes all of this without taking the material apart or using an axe on it.

Colleges were invented a great many centuries ago, but have only become violent during the last fifty years. Formerly, a college was only a place in which to learn things in books, and was as dull as a monastery. Now it is a place in which to learn all about Science, Politics, Law, Tennis, History of Art, Hocking Off With the Rhine, Evidence of Christianity, How to Keep a Dance Program Straight, Hobbies, First House Construction, Trigonometry, Riga Stealing, French, Advanced United States, Psychology, Eating in All the Branches, Baseball, Gimmicks, How To Live On Credit, Mathematics, the Science of Making the Hate Hand Up Straight, Political Economy, Neises — Mechanical and

of the great strides made by science in the last century. But science is a canal boat compared with education. Colleges are useful because they produce teachers, preachers, writers and statesmen. They are a nuisance because they produce "rah rah boys" in explosive clothes, who have confined

their studies to a thorough education in the conquest of misery. Happily, these are greatly in minority. Statistics show that all of the men in America, less than one-fifth are college graduates. On the other hand, one-fourth of all the famous men in the country are college men. One-half of the members of Congress are college men. Seventeen out of twenty-six Presidents have been college men. Nine-tenths of the writers of the country, and one-half of the millionaires, are college men—and one out of a thousand inmates of prisons are college men.

This teaches us that the college boy who minds his teachers and does not burn down the buildings during his course of study, stands an exceedingly good chance of landing at the top. But it does not teach us that a college boy is destined to receive a free ride to fame. The world is full of college graduates who are still waiting for the hand wagon to come along and haul them to the White House; and some of them are having difficulty in paying their board bill while waiting.

EXPLOSIVE READING MATTER! "A bomb!" some one suggested when an expressman placed a package, about the size and shape of a New York city directory, on a counter in the office of the International Arms and Fuse company, occupying the greater part of the twelfth floor of the Fifth Avenue building, 309 Fifth Avenue.

Clerks and other employees stood back and gave the package a wide berth. John McHenry, clerk, finally volunteered to carry it to the street. There he gave the package to Patrolmen Herthy and Desormaux at the corner of Twenty-third street. Desormaux hurried with it to the West Twentieth street station and turned it on the desk before Lieut. Wilson.

Inspector Egan, of the bureau of combustibles, opened the package. It contained a book—"From the New York Sun."

HIS HAT IN THE RING AT 91. Milton C. London, 91 years old, of London, decided to seek his first political office at the coming election. He has been named for justice of the peace by London Democrats, and his candidacy has been returned by the Republican organization of the borough.

Although he never before has been a candidate for any political office, Mr. London declares that if his services as justice prove pleasing he will seek higher honors at the polls.

COLUMBUS HONORED BY CLOVIS ITALIANS

Discovery Day Observed by Celebrating High Mass and Parade

CLOVIS, Oct. 10.—Italians of this section celebrated today in honor of Christopher Columbus. After mass at the Catholic church, a procession followed by Rev. L. E. Miller and Joseph Galliano, a leading Italian rancher. After them came the Fresno band, then a long line of school children, then a division of adults. They marched through the principal streets and made a fine showing. American and Italian flags were carried in the procession and the streets were lined with spectators throughout the entire route.

This evening a mass meeting was held in the auditorium where a large number of Italians and Americans listened to an address in Italian by Prof. D'Agostino of Naples, Italy, on the duty of Italian citizens to their foster country. Rev. L. E. Miller spoke along similar lines, and Prof. John M. Cox of Clovis high school, who has traveled extensively in Italy, delivered a fervent address on "Christopher Columbus." The band rendered a fine program and a Fresno moving picture firm made film photos of the church scenes and procession for the "movies."

Assemblyman L. B. Cary and Assemblyman Hanson will address the people of this vicinity Monday evening at Parlier, call on the proposed non-union law.

DROVE AUTO STAGE WITHOUT LICENSE

OAKDALE, Oct. 10.—A. Damus of Sonoma was arrested here yesterday for driving an auto stage seven months without a license. Damus carried his dealers' license, which he secured at Sonoma, but no regular license, and his arrest today showed. He claims that he needed nothing more than a dealer's license. His trial has been set for Thursday, before Judge Wilkinson.

OROSI

OROSI, Oct. 10.—The home of Mrs. R. L. Sparks on Alameda avenue was the scene of a very delightful gathering when the Ladies Social club held its first meeting of the season Wednesday afternoon. Following a short business session, a literary and musical program was rendered. The numbers were: piano solo—"Cherry Blossom," Miss Lena Sparks; reading—"Sayings of Mrs. Solomon," Miss George; piano duet—"Electricity," Mrs. Lena Sparks and Mrs. George; piano recitation—"Telephone Conversation," Miss Bessie Ethridge; piano solo—"Love's Caress," Miss Lena Sparks. At the conclusion of the afternoon a buffet lunch was served by the hostesses, assisted by Mesdames George, Riley, Perry, Toot, George Smith, Charles Ryan and L. A. Straw.

The next meeting will be held at the home of Mrs. John Robinson. Her assistants are Mrs. Wm. Woods, Mrs. H. L. Ward, Mrs. B. Workman and Mrs. Lena Williams.

Mr. J. A. Cooke will be hostess at a meeting of the Thimble club next Wednesday at her home east of Orosi. Mrs. J. E. Cook and Mrs. W. N. Evans will assist in the entertainment.

A party composed of Mr. and Mrs. Joe George and daughter, Marie, and George and Will Ethridge left this morning by auto for San Francisco. S. McDaniel and Fred Cabell of Deer Creek passed by here Thursday with their.

A New Remedy for Kidney

Bladder & all Urinary Troubles

Successfully Used by Many Physicians and Surgeons in Their Hospital Practice.

Dr. Weir Mitchell once said: "What we call diseases are only symptoms of conditions of the body. The remedy is to be directed to a certain point, and be it ripe for any of these weaknesses, or certain conditions which we call disease."

This failure of kidneys to act, through congestion, inflammation, any person's condition is ripe for disease to fasten its hold upon the system.

At Dr. Pierce's Invalids' Hotel and Surgical Institute, Buffalo, N. Y., there has been tested for the past few years a new remedy for kidney, bladder, and such troubles, rheumatism, gout, and such ailments as follow, and so many cases both acute and chronic have yielded to this wonderful remedy that Dr. Pierce decided to name it "An-Urile," and arrange for its distribution to the public through medicine dealers everywhere.

If backache, swelling urine or frequent urination bother or distress you, or if uric acid in the blood has caused rheumatism, gout, or sciatica, if you suspect that you have kidney or bladder trouble, write Doctor Pierce, at Invalids' Hotel, Buffalo, N. Y., send a sample of urine, and describe symptoms. A physician and chemist will examine it without charge and you will be under no obligation whatever. These "An-Urile" Tablets cannot fail to help you, because their action flushes the kidneys of impurities and puts strength into them.

Obtain a 50-cent box of these tablets to-day from your druggist, here in town. From personal observation in large hospital practice, Doctor Pierce knows these tablets will give you speedy help if you are suffering from uric acid trouble, and to show his sincere faith this prescription is sold under a positive guarantee to any person who has taken a full box and has not been helped.

CONTINUE TULARE DITCH LITIGATION

VISALIA, Oct. 10.—The Superior Court has continued the trial of the case of the Poplar Irrigation district vs. A. A. Howard and sixty other defendants until Tuesday. The case has been continued each day by the court pending the possible adjustment of differences among several of the defendants by which an opening might be made for an entire compromise. It is to be hoped that some compromise can be effected in this case, as there is no desire on the part of either the plaintiff or the defendants to spend any more money than they have to to find out what the law means.

POPLAR

POPLAR, Oct. 10.—The Ladies Aid met the past week with Mrs. Wilson. About twenty ladies were present and the afternoon was spent in sewing. During the business meeting plans were laid for the Poverty social to be given this month and several new members were appointed to the roll. It was decided to set the price for tying a quilt at \$1.

It was agreed to make an effort to secure new members for the next meeting.

At the close of the business an invitation was extended to the Aid to visit Mrs. Harry Taggard in November.

The Epworth league meeting last Sunday evening was in charge of Dr. Emery of Porterville, whose topic was "The Love Center of the Universe." The Porterville M. E. church, of which Dr. Emery is pastor, was present, and sang an anthem, "Hark, Hark, the Sound," and Walter Emery gave a solo, "My Task." The service was very much enjoyed and the Poplar league expressed their pleasure in having so large a delegation from Porterville. Among those present from Porterville were Dr. and Mrs. Emery, Mrs. Lord, Miss Conner, Mr. and Mrs. Ferguson, Walter Emery, Mr. and Mrs. Omar Avery, Dr. and Mrs. B. L. SONORA

SONORA, Oct. 10.—Louis De Martin, charged with killing hog belonging to W. J. Lewis, had his hearing in the justice court Friday. He waived a jury and acted as his own attorney. With the aid of witnesses he showed that the hogs had trespassed on his property at a former time and destroyed a lot of his potatoes. That he had Lewis arrested and sued for \$500. That he lost his case and narrowly escaped being prosecuted for extortion. Therefore, when the hogs repeated their depredations he took the law into his own hands and shot the animals. The court fined him \$30, which he paid.

Royal S. Nicholls and Miss Adeline Adams, both popular young people of Sonobuville, Tuolumne county, were married in the Methodist church by Rev. S. E. Crowe Thursday evening. The wedding was a pretty one largely attended. The church was beautifully decorated with roses, carnations and ferns. Mr. and Mrs. Nicholls left by auto to spend their honeymoon in San Francisco. Upon their return they will make their home in Sonobuville where Mr. Nicholls has a position with W. Barron and Son.

Mr. P. H. Phelan brought suit in the Superior court for judgment of \$204.10 against the Santa Ana Mining company, alleged due for assessment work done on their property. Also for \$31,600 damages assigned plaintiff by T. H. Carlton.

Miss Rosa Winterberg, who has been attending the Glendale sanatorium, has been compelled to return home on account of ill health.

C. J. Dunn and Mrs. R. K. Eccles will arrive in Armona sometime next week. He will spend a few days at the fair on his way. He intends to spend the winter with his sister.

DISLOCATES LEG IN BATTLE WITH SKUNK

La Grange Rancher Meets With a Peculiar Accident

OAKDALE, Oct. 10.—Ben Rushing of La Grange, no longer believes what the naturalists say about the skunk being a harmless individual. Rushing knows better. He is in a hospital in Oakdale, though because he didn't discover the nature of skunks were wrong a few weeks ago.

Rushing was stepping lightly across the floor of his barn, when a board gave way, and he was dropped to the earth, only a few feet away. He felt of his bones and discovered he was all safe and sound. Then he sniffed a bit and smelled a skunk. Rushing jumped up in such a hurry that he dislocated his leg, running away. He was brought to Oakdale in an auto and his leg was set. But nobody can tell him again that the skunk is a perfectly harmless critter.

KINDERGARTEN TO OPEN IN MARICOPA

MANCOPA, Oct. 10.—The appliance and supplies for the kindergarten school in Maricopa, and it is announced by Supervising Principal J. R. Cookman that all is in readiness for the opening of this auxiliary school Monday morning. Miss Cookman, the teacher secured, has had much experience in this kind of work, and the class of thirty that promises to be on hand Monday morning will have the same advantages in Maricopa that could be secured in metropolitan schools. Kindergarten work is a special hobby with Prof. J. R. Cookman, who has seen much of the advantage children from it have over other children in his various experiences, and he will make a special effort to bring this out in the ideals that the children entering school later shall not disappoint him in the way they take up their regular work.

Aug. Gaudran and his party that were out last Friday report only two refusing to sign up and that most of those subscribing stated that they would double their subscriptions later.

Work repairing the dam of the Alta Irrigation Company was commenced Saturday, quite a force of men being put on to rush the work through.

COMMEND REPUBLICAN NEWSPAPER EDITION

Many kindly commendations of the Republican's Newspaper edition have appeared in other papers. Some of the opinions of our neighbors are:

MADERA TRIBUNE

The observance of "newspaper day," which is today, the Fresno Republican this morning issued, aside from its more than usually large paper, an excellent edition of the paper devoted to a presentation of the progress, resources and attractions of the San Joaquin Valley. The text is carefully prepared and fully illustrated, making the issue one of the most complete in its dealing with the great valley that has yet been attempted. Each county comes in for extended mention and all in all it is a thorough work for which the Republican is entitled to praise and the Valley to congratulation.

BAKERSFIELD ECHO

A San Joaquin Valley edition of 24 pages, all of splendid merit, in addition to the regular issue, was published yesterday by the Fresno Republican. Every county and city in this fertile valley of more than 6,000,000 acres, was given a fine write-up. Kern county received a whole page and to Bakersfield was allotted a very large section. The county was well illustrated. Fresno came in for the lion's share of the publicity, but the issue was a very creditable one and the several counties were well taken care of.

One of the interesting features for the farmer is a description of the infant rice industry of which there are 5,500 acres planted in the valley. Twenty-four hundred acres of rice is credited to Kern county and 1,114 acres to Fresno county.

Paul W. McKinnon, Delano, Maricopa, Tehachapi, Wasco and our colonies will come in for a good share of space.

OAKDALE GRAPHIC

Under the heading "Conditions Around Oakdale Are Good," the Fresno Republican, in its splendid Newspaper Day special edition today, gives an encouraging write-up of the Oakdale district. The page on which this appears is embellished by several photographs, one of them of a street in Oakdale.

Today's Republican is one of the best special editions of a newspaper that this coast has ever seen, built as it is on the foundation of development of the San Joaquin valley, rather than a boost for individuals.

Rice growing around Oakdale also gets favorable mention in a separate article about rice. Stanislaus county ranks fifth in rice production in the San Joaquin Valley. Every year the outlook for next year is about 5,000 acres.

PLANADO ENTERPRISE

The Fresno Republican got out a 24-page Newspaper Day edition today that will compare favorably with any big city daily published on the Pacific coast.

MODESTO NEWS

The Fresno Republican edition today celebrating "Newspaper Day" is the finest edition ever published in the Modesto Valley. Every portion of this great empire is given space and great good will surely follow the general distribution of the publication.

FOWLDER ENSIGN

In preparing this issue the Republican has endeavored to present, in an concise manner as possible, all the opportunities and advantages offered in the San Joaquin Valley, together with the descriptions of the beauties and other features.

EARTHQUAKE SHAKES YOSEMITE VALLEY

OAKDALE, Oct. 10.—The Yosemite valley felt the most severe earthquake shock since 1894, a week ago Saturday night, according to Mrs. J. A. Rydberg, who returned to Oakdale today from the valley. "We felt four or five severe shocks and everybody rushed out to see what had happened," said she today. "For a time the earth trembled violently and we thought some of the buildings would fall. It was the most severe shock felt in the valley."

CLOVIS

CLOVIS, Oct. 10.—Joe Milonaise, the fourteen year old son of Mrs. A. Milonaise, a widow, shot himself in the right leg yesterday with a .22 caliber rifle. The bullet was located and extracted by Dr. M. S. McMurtry.

J. S. Ferguson, treasurer of the Fresno Flume and Lumber Company, is in San Francisco on business.

C. C. Laval and William Bordenman of Fresno were in town on business today.

Gay M. McElreid of the First M. E. church preached a farewell sermon tonight at the Presbyterian church. Rev. McElreid has been very successful in church work here and has been placed in charge of an important church in Los Angeles.

Mr. and Mrs. R. E. L. Gould left this morning for San Francisco.

Joseph Gil is spending a two weeks' vacation at the California Hot Springs. John A. Dawson and Robert Johnson of Round Valley leave on Wednesday for San Francisco.

H. G. Johnson of Alameda is in town to arrange for a new ranch house on his olive ranch near town.

Rev. J. W. Rogers, pastor of the First M. E. church and will preach his opening sermon next Sunday.

H. M. Lattenden, who acted as director of manual training at the high school, is in charge of the Imperial high school in Southern California.

Harold Franck, who is in the U. S. navy, is home on a furlough.

George Fessenden of Rochester, N. Y. is in town looking up a ranch location.

FOWLDER

FOWLDER, Oct. 10.—Mrs. J. C. Fowler of Selma, county supervisor of the medical contest work, was in town Friday in attendance at the all day meeting of the W. C. T. U. The local union is arranging to put on several contests during the winter months.

Otto Loeschner went to San Francisco Friday to meet his brother, E. A. Loeschner of Vancouver, B. C., who is in that city attending the exposition.

The F. Chambers family, enjoying a visit from Mr. and Mrs. S. H. Chambers of Bakersfield.

W. M. Flack of Monmouth, Ill., and his son, F. S. Flack of Los Angeles, arrived last evening to visit at the C. E. Flack home on Third street.

Mr. E. T. Waters, instructor in value in Fresno, was in town yesterday and paid the high school a visit. He delighted the student body by singing several selections.

Win M. Darr went to San Francisco this afternoon to attend to business matters and incidentally to visit the exposition.

The Bowles W. C. T. U. will hold a rally meeting in the Bowles church Tuesday, October 13 at 2:30 p. m. Report of state convention will be given, also the membership report. All members are requested to be present and visitors are cordially invited.

FEATHER DUSTER ROUTS THIEF

Mrs. Elsie Buck, wife of H. P. Buck, of 248 Monroe street, Brooklyn, caught a man, who later said he was James Marline of Jersey City, Mrs. Buck, who has been ill recently, went upstairs to answer a telephone call, and when going down again bumped into Marline in the hall. She asked him what he was doing in the house and he fled.

Armed with a feather duster, Mrs. Buck pursued him six blocks to Franklin avenue and Madison street. There she nabbed him just as Policeman Clark, of the Gates avenue station, arrived. He took Marline to the City and county court, where he was locked up.

Mrs. Mary Ochsenreiter, who runs a small carpet store at 21 Stockton street, Brooklyn, saw a man, who later said he was George Dorsey, take a roll of carpet and start away. She ran after him, and a half mile away caught hold of him. Dorsey struck her repeatedly and knocked her down but she held on and retaliated with punches of her own. Policeman Clark, of the City and county station, went to her aid and arrested Dorsey, who was held for a hearing when arranged in the Manhattan avenue court.—From the New York Times.

PLANADO ENTERPRISE

The Fresno Republican got out a 24-page Newspaper Day edition today that will compare favorably with any big city daily published on the Pacific coast.

MODESTO NEWS

The Fresno Republican edition today celebrating "Newspaper Day" is the finest edition ever published in the Modesto Valley. Every portion of this great empire is given space and great good will surely follow the general distribution of the publication.

FOWLDER ENSIGN

In preparing this issue the Republican has endeavored to present, in an concise manner as possible, all the opportunities and advantages offered in the San Joaquin Valley, together with the descriptions of the beauties and other features.

DANCING ADVOCATED BY SCHOOL PRINCIPAL

Woman's Club of Oakdale Shocked by Well Known Educator

OAKDALE, Oct. 10.—Prof. W. B. Westernman, principal of the Oakdale Union high school, electrified some of his hearers and shocked some of the state old church members when he told the Woman's Improvement Club at their regular meeting Saturday, that they ought to provide dances for the young people of the community, instead of holding up their hands and crying horror at the tango and bunny hug, and the later dances of the same variety, with more fashionable names. The Woman's Improvement Club has a club house and Professor Westernman upbraided the ladies and told them bluntly that they could be in no better business than in providing sang and healthy amusements for the young people of the city and county.

"A lot of you people seem to spend your time in condemning the dance," said the professor, "and imagining the awful things that happen at these dances. Perhaps some of the dances the people go to are not the best in the world. But they crave amusement and pleasure and the best way to keep them from attending objectionable dances is to provide them with proper kind of innocent amusements."

Professor Westernman suggested that the club house be arranged for dances which the young people could enjoy. He said that if the women took hold of the matter they could regulate the affair, and make a proper sort of a place, in which no one could have any objection. Incidentally he stated that the high school had experimented with dances last year and that they had been a success and he found that the young people did not attend the wrong sort of a dance. The club, after the first shock over the proposal, had about the high school appointed a committee to consider the request of the professor. The club is anxious to rebuild the club house and make it attractive for evening entertainments.

**OF C. COACH EXPECTS
DEFEAT AT HANDS OF
WASHINGTON**

AN FRANCISCO, Oct. 10.—A
ment published here says that

ment published here says that Schaeffer of the University of Oregon has but scant hopes of defeating the University of Washington in the big game here next month, but he expects his team to score against the Northerners. Critics of the team are inclined to agree with the coach, at least, insofar as his first prediction goes. They are at all so sure that the Californians score.

An awful mixture of rugby and the American game, the way one

...who have been watching the col-
...play, expresses himself.
...not only have to learn the Ameri-
...game, but they have the additional
...of having to unlearn the
...English code.
...of this criticism is evi-
...in a number of ways. Califor-
...defense which is the weaker de-
...ment of its game, is largely so
...it the men are not tackling low and
...with the body. The majority of
...one has not been eradicated. The
...uilt is that the runner is not bring-
...down back when tackled, aggregat-
...many yards gained for the oppo-
...in the course of a game. Instead

going low are using the upright line in vogue in rugby where the instant passing of the ball from one player to another is called for. Followers of the University of Washington eleven profess not to be particularly impressed with the show-down that Coach Dobla's men have made thus far this season. The University of Oregon has been working hard to stiffen its offensive game. There is but a glaring evidence of greenness among the players, so the coach declares. Students of Na-

At Reno are undergoing the same educational difficulties as the University of California and for this reason, the sage brush players have not been coming at all formidable this season. The University of California varsity defeated the Oakland Originals yesterday, 7 to 0, and the U. C. freshmen scored a scoreless tie with the Sacramento Athletic Club.

Stanford, still loyal to the rugby system, had five teams on the field yesterday and four of them scored victories.

The Stanford varsity defeated the

the Fremont high school team. The basketball team of the San Francisco, 3 to 3; the freshmen team got a close decision over the Berkeley high school; the third varsity defeated the Oakland technical school 11 to 0; the second varsity scored 3 to 0 in an unfinished game with St. Ignatius college; the fourth varsity was defeated, 11 to 6, by the Fremont high school of Oakland.

CHAMPIONSHIP OF CITY
National League Are Defeated, 11-3.
White Sox Take Four
Games of Five

CHICAGO, Sept. 10. — The Chicago American League team won the championship of Chicago from the National League by taking today's game, 11 to 3. The Americans' standing is four games to one.

Alvin Karpis, the gangster, who shot out the

American Leaguers in the second
 game of the series, was hit hard today,
 and this slugging, with erratic fielding,
 gave the White Sox the victory. Rues-
 sell pitched for the Americans.
 The total paid attendance was given
 as 32,666.

**Holmes Baseball Team
 Defeats Republicans, 10-8**

In their first meeting, the strength of the Republicans were defeated by the newly organized Holmes Playground team, 10 to 8, yesterday afternoon. Royer for the Holmes men pitched the good ball and allowed but a few hits and kept them well scattered. Henley for the Republicans was hit freely and replaced by Daniels, who hurried to steady game.

The batteries yesterday were: Holmes, Royer and Kalber; Republican, Daniels, Henley, Daniels and Ashley. Members of the Holmes team are: First base, Marshall Turner. Mc-

 BROWN HAIN BUFFRAGISTS' CR

The greatest danger faced by the women's clubs is the lack of "brown hair in the ranks" was the warning given to the women of the Minnesota Federation by the national president, Mrs. Percy Pennypacker.

"We lack the young women," said she. "We miss the optimism, the youthful outlook, the buoyancy that youthfulness carries with it. Let us interest the young women, so that every step of girls take will be toward us instead of away from us. I have no patience with those who say youth will not

PEOPLE OF CHINA TO DECIDE GOVERNMENT

PEKING, Oct. 8.—(G. W. P. M.)—China's state council, acting in the capacity of a legislature, today promulgated the bill authorizing the chief executive to call a people's convention for the purpose of settling the form of government China is to have in the future.

The members of the council in a message accompanying the bill recommended that every opportunity be given to secure the real opinion of the masses on the question whether China is to have a monarchial or republican form of government.

TWO KISSES \$250, HE OBJECTS.
Dr. Louis J. Chaves, a dentist, objects to a kiss for \$250. He has filed in the supreme court notice of an appeal from an award made to Miss Alice Bennett, 17 years old, and once his assistant. Moreover, he asserts he never got the kisses.

SKYROCKETS TO FIGHT BIRDS.
Prof. H. A. Surface, state zoologist, has a new way to drive roosting blackbirds from shade trees. Some one in Erie, Pa., wrote to the professor, complaining that the birds were so numerous that they were a nuisance.

CASE OF NECESSITY.
Here is a story that was told by Representative James C. Cantrell, of Kentucky, the other afternoon in illustrating a remark on the force of necessity.

MEAN HUSBAND.
They were as loving as any couple could be, even if they have been married more than five years, but one day last week Friend Husband made what he considered a bright remark, which his wife resented, and up to the present time things are not entirely smooth.

TINTED POLYGAMY.
The old negro had been arrested for "having more than one wife," and the woman being the complainant. He happened to be well known, locally and an orderly character.

POLICE TO PATROL DEPTHS.
New York policemen walk the earth, and when Broadway rocks shift, they venture into the subterranean. They use the seas in their launches and patrol boats and on several occasions "Mile-a-Minute" Murphy drove an aeroplane for the department. Now the latest order is to come under city police control.

SILVER MINE UNDER CITY.
Imbedded under 100 feet of solid earth, a silver vein, more than a mile long and 7 1/2 feet deep, and said to contain nearly \$1,000,000 worth of silver, has been discovered in the United States bureau of mines site, Forbes and Craig streets, Oakland, by Chief Engineer J. D. McIntire.

PEACH GROWERS ARE URGED TO GET TOGETHER

Campaign Being Waged to Bring About a State Organization

Plan Is for An Association Similar to Associated Raisin Company

A vigorous campaign is to be waged this week among the peach growers of Fresno county in connection with the plans for the organization of the growers into an association similar to that of the California Associated Raisin Company.

Four meetings will be held beginning with the one at Manning school house on Tuesday evening, followed by others at Mounmouth, Clay and Harrison school houses on Wednesday. Thursday and Friday evenings the meetings to be called at 8 o'clock. At all these meetings the matter of having the growers subscribe will be strongly urged and the advantages of organization shown.

They the standardization of the product and the education of the consumer to demand the California dried peach product would follow the perfecting of the organization goes without saying and if nothing else than this would be accomplished would mean much to the dried peach industry, is the declaration of those who are and have been studying the situation. The object, however, is to bring about the same result to the peach grower that has come to the raisin grower.

Statistics show that the number of peach trees in bearing in the state last year was 10,199,548 and that the shipments in actual carloads from the territory north of the Colorado river were 2141. The output of dried peaches for the same year is given at 37,000 tons.

In forty townships in the San Joaquin Valley last year there were 587 growers of peaches who represented an acreage of 55,528 acres. This acreage has been increased this year. The work of the committee who is endeavoring to bring about the organization is to get all these growers in as well as those all over the state. One member of the executive committee is in the San Joaquin Valley working up interest in the organization there.

Arrangements for Big Meeting in Auditorium Nearing Completion

Arrangements for the meeting at the Auditorium on Wednesday evening at 8 o'clock for Governor Johnson to be the speaker and discuss the non-partisan measures, bills passed by the last legislature, have not been entirely completed.

The committee having the matter in charge consisting of Senator W. F. Chandler, Los Angeles, and Mr. J. H. Harris will meet this morning to select the chairman and vice president of the meeting.

With this done, everything will be in readiness for the meeting. Every indication now is that the great building will be filled by those who are anxious to hear the governor explain the purposes of the legislation which the people are asked to pass upon at the election to be held on October 26.

During the week several other meetings will be held in the county which will be addressed by John F. Neelan, president of the State Board of Control, and Tom Griffin.

There is great interest being shown in the campaign and the people are turning out in great numbers to hear the speaker in advocacy of the non-partisan measures.

METHODIST PASTORS GIVE LAST SERMONS

Rev. Burden and Chaffee to Take Up Work in Other Places

Rev. Thomas Burden, pastor of the Grace Methodist church, and Rev. Ralph H. Chaffee, pastor of the Van Ness Methodist church, gave their farewell sermons yesterday.

Rev. Chaffee spoke in the morning service, thanking his congregation for their support and cooperation during the year. He closed with parting words. After the service many of the members again bid him farewell and could hardly keep their eyes from watering as he left the pulpit.

Concluding with a discussion of church work here, and making suggestions for the newly appointed pastor, Rev. W. L. Peckham, Rev. Thomas Burden gave his farewell sermon before a well filled church in the evening at Grace.

Rev. Burden will go to Colusa, Calif., where he will be in charge of the church. He said in part:

"It is easy to ask God to bless me, but why should we expect him to do so? Does he need our blessing? There is a great want. It can be only satisfied with love. God created the universe with plants and animals, but though they were good yet he was not satisfied. They could give no response. When man came upon the scene, the highest of all, then God believed the creature and saw that it was very good. It is interesting to note that the adjective here was not used until after man's creation. Love is all that we can give to him."

Parting words were given by Rev. Chaffee in prayer we are concerned with 'self' but in prayer we are concerned only in God."
